

# JDA'S UNIQUE "PRINT INDUSTRY" JOBS MATRIX AT A GLANCE

Welcome to the unique, spectacular, original and genuine "JDA PRINT MATRIX"!

**What does it do?** It puts the so-called "printing industry" under the microscope - as a tool for both Candidates and Employers.

**For Candidates** it reveals that the printing industry is much more than just "books and magazines".

**For Employers** it shows that JDA finds staff across the broad spectrum - from production and sales to technical and even general management.

**And for School-Leavers and Job-Hunters** generally, it shows that the so-called print industry is vastly bigger, and offers more diversified roles than you may have thought!

Happy job-hunting - we're here to assist.
